PURPOSE

PEOPLE

PLANET

PROGRESS

Semiconductor Systems

lesigning and manufacturing the systems used

Applied Global Services

Providing consulting, spare parts, services, and automation software to improve equipment and fab operation performance and productivity.

Display and Adjacent Markets

Making the products to manufacture LCDs, Oband other display technologies and customeroriented devices, and equipment for processing flexible substrates.

Applied Materials is the leader in materials

every new chip and advanced display in the world. Our expertise in modifying materials at

engineering solutions used to produce virtually

atomic levels and on an industrial scale enables customers to transform possibilities into

reality. We are driven to Make Possible a Better

Future for everyone.

Our Products and Services

Applied provides manufacturing equipment, se

and software to the semiconductor, display, and rela industries. Our customers include manufacturers of

solar panels, plus processors of flexible substrates.

semiconductor chips, liquid crystal (LCD) and organic lightemitting diode (OLED) displays, other electronic devices,

Applied Ventures, LLC, is the venture capital arm of

Applied Materials that invests in and collaborates

with startups to transform disruptive possibilities

into reality. Applied Ventures is stage agnostic and

invests up to \$50M per year globally. Learn more

Sustainability Report 2020 2 Applied Materials is the leader in materials engineering solutions used to produce virtually every new chip and advanced display in the world. Our expertise in modifying materials at atomic levels and on an industrial scale enables customers to transform possibilities into reality. We are driven to Make Possible a Better Future for everyone. About Applied and Services Applied Materials Our **Products** provides equipment, services, and software manufacturing semiconductor, display, and related industries. Our customers include manufacturers of semiconductor chips, liquid crystal and organic light- emitting diode displays, other electronic devices, solar panels, plus processors of flexible substrates. Applied Ventures, LLC, is the venture capital arm of Applied Materials that invests in and collaborates with startups to transform disruptive possibilities into reality. Applied Ventures is stage agnostic and invests up to / 50M per year globally. Learn more Semiconductor Systems Designing and manufacturing the systems used to fabricate 'semiconductor chips. Applied Global Services Providing consulting, spare parts, services, and automation software to improve equipment and fab operation performance and productivity. Display and Adjacent Markets Making the products to manufacture LCDs, OLEDs, and other display technologies and customer- oriented devices, and equipment for processing flexible substrates. Note: Any images that depict people unmasked or not socially distant were taken pre-pandemic.
